

JOURNEY OF A RAINDROP

Topic: Stormwater Runoff

Brainstorm: In the space below, jot down ideas for the lifespan of a raindrop that fell from the sky. Where did it begin its “life”? How did it get here? What/who did it see on its journey? What types of people or animals or things did it interact with during its lifetime (interaction can be positive and negative)? Does the raindrop have feelings? If so, what would they be? Who is telling the raindrop’s story (first-hand or narrator)? Be creative!

Voice: _____

Adventures during beginning of life:
Adventures during middle of life:
Interactions during “lifetime”

Feelings

How did it end up where it is now?
