

Planning with Nature

Adaptation to Sea-Level Rise Workshop

[Location and Date]

Workshop Goals

Participants will be able to...

- discuss various nature-based adaptations, including how to link options to specific site characteristics and needs;
- articulate the benefits of nature-based solutions for climate-related adaptation; &
- create a plan for their own adaptation development process, including identifying needed expertise/collaborators.

Agenda

8:30	<i>Coffee & tea (provided)</i>
9:00	Welcome & workshop introduction <ul style="list-style-type: none">• Facility orientation• Workshop agenda & objectives• Overview of SLR Adaptation Framework
	Watershed game
	<i>Break (~10 mins)</i>
	Case examples overview
	STEP 1. Vulnerability Assessment
	STEP 2. Identify Nature-based Adaptation Approaches
12:40	<i>Lunch (provided, ~40 mins)</i>
	STEP 3. Envision Desired Futures
	<i>Break (~10 mins)</i>
	STEP 4. Combine Suitable Adaptation Measures into Strategies
	STEP 5. Evaluate and Prioritize Strategies
	Feedback/Discussion about workshop
3:50	<i>Wrap</i>

Funding for the development of this workshop was provided by the **National Oceanic and Atmospheric Administration (NOAA)** through the National Estuarine Research Reserve System Science Collaborative, **The Lisa and Douglas Goldman Fund**, and **The Seed Fund**.
